## Environmental Sustainability Award

- Reduction of plastic usage and waste by phasing out the use of single-use plastic bottles completely and switched to using imported bamboo straws
- Guests receive a complimentary stainless steel water bottle upon check-in.
- Reusable cutlery and plates used on tours are encouraged
- This has reduced water and waste-removal bills.

## Environmental Sustainability Award

- The two year-old Tryall Forest Reserve supports endemic species of plants and animals in the Flint River/Pondside Water Shed.
- Trees from Tryall were planted at a local school and in a watershed area to mitigate the impact of global warming.
- Pollution mitigation and cleanup exercises on irrigation ponds to provide aquatic wildlife refuge for migrant birds, native fish and migrant turtles.

## Environmental Sustainability Award

- A "Recycling Queen" has been appointed to sort recyclables, weigh them and send them to a recycling center.
- Each week, True Blue gathers about 40 pounds of cardboard, 15 pounds of plastics and 10 pounds of aluminum, contributing to the reduction of hotel waste by 60 percent.
- 10% of its electricity consumption is now produced by solar panels and the hotel has played a lead role in hosting environmental cleanups throughout the community.
